

SENIOR VALUATION EXECUTIVE ROLE OUTLINE

The Senior Valuation Executive works across our Valuation Teams, working on M&A and Restructuring & Bankruptcy IP valuations for our global client base.

Key responsibilities within six to twelve months include:

- Performing corporate financial and risk analysis
- Participating in and then leading information discovery calls with clients
- Determining IP valuations, adopting recognised IP valuation methodologies
- Drafting IP valuation reports and proposals
- Reviewing and occasionally carrying out corporate research and supervising work carried out by the analyst team

Other responsibilities on an ad hoc basis include:

- Reviewing and improving Metis Partners' internal process and procedures
- Ensuring our valuation inputs remain up-to-date and reliable
- Managing client engagement and communications

Essential qualifications and experience we are looking for include:

- Qualified/Part Qualified related professional qualification
- 3-4 years of experience working within professional services, ideally in business valuation or IP valuation
- Commercial and financial awareness in a client-facing role

Essential qualities we are looking for include:

- A commitment to learn about business analysis and IP valuation and the specialist services we offer
- Excellent written & verbal communication skills
- Attention to detail and the drive to learn the rigor required to deliver our professional services
- Strong analytical and research skills
- Solution-focused and resourceful, with a "can-do" attitude
- Ability to work remotely and independently for periods of time and remain engaged and focused

Nice to have qualities include:

- Track record of project management/delivery competence
- Relevant technical knowledge
- Prior experience in assisting and coaching staff to ensure timely and high-quality deliverables
